

## Car Sideslip Tester

Today, time is money. Did you ever spent more than an hour to finish Aligner Testing, only to find out that you don't need do that? Our Sideslip Tester only need 5 seconds for you to decide whether you need Wheel Aligner test or not. It can test the comprehensive degree of the deviation. If the testing result is out of the normal range, then we need the Wheel Aligner to judge the main cause.

### ★ Measurement Items

Sideslip (mm)

- ★ Single sideslip tester with relax plate can decrease the pulling force, making the sequence more accurate.
- ★ With high sensitivity displacement sensors, can increase the veracity of the testing result.

## RSS-500 Sideslip Tester

Item	Parameter
Axle Load	3T
Testing Speed	5-10 km/h
Testing range	±15mm
Testing Plate Length	500mm
Dimensions(L*W*H)	800*460*60mm

Shanghai Jevol Electromechanical Equipment Co., Ltd.  
Room 1101, Building 1, No. 801 Huiping Road,  
Jiading District, Shanghai, China

## RSS-500S Sideslip Tester with Fix Plate

Item	Parameter
Axle Load	3T
Testing Speed	5-10 km/h
Testing range	±15mm
Testing Plate Length	500mm
Dimensions(L*W*H)	1130*710*60mm X 2
Ramp Dimensions	400*710*60mm

## Digital Display

With stable performance to show the testing result directly, print out the result with option micro-printer. The data can also be transferred to PC.

## Control System

- ▶ Embedded industrial computer
- ▶ CPU: 2.4G
- ▶ Memory: 1G
- ▶ Hard disk: 160G
- ▶ Monitor: LCD 19"
- ▶ Industrial computer has high anti-interference and anti-vibration performance. With good heat dissipation performance and long life time.
